Home welcome screen.

When user clicks in add new contact, a dialog box will appear for user to enter details.

Here user can enter all the contact information required.

Once the user enters the input we can see the details in the main list window

When user double clicks in one entry they can update the details. After clicking on updates all the changes made will be updated.

When user selects one entry they want to delete they can click on delete button and then the entry will be deleted.
